1. Description of Business and Basis of Presentation

Description of Business

Pitney Bowes Inc. (we, us, our, or the company) is a global shipping and mailing company that provides technology, logistics, and financial services to small and medium sized businesses, large enterprises, including more than 90 percent of the Fortune 500, retailers and government clients around the world. These clients rely on us to remove the complexity and increase the efficiency in their sending of mail and parcels. For additional information, visit www.pitneybowes.com.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In addition, the December 31, 2021 Condensed Consolidated Balance Sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In management's opinion, all adjustments, consisting only of normal recurring adjustments, considered necessary to fairly state our financial position, results of operations and cash flows for the periods presented have been included. Operating results for the periods presented are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2022. These statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report to Stockholders on Form 10-K for the year ended December 31, 2021 (2021 Annual Report).

Net income for the six months ended June 30, 2022 benefited by approximately $3 million from adjustments related to prior years. The impact of this adjustment was not material to the consolidated financial statements for any prior quarterly or annual periods, and is not expected to be material to the current annual period.

Risks and Uncertainties

The effects of COVID-19 and the risk of a global recession continues to impact how we and our clients conduct business. The impacts on our business remain unpredictable and accordingly, we are not able to reasonably estimate the full extent of their impact on our operating results, financial position and cash flows.

Accounting Pronouncements Not Yet Adopted

In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting.* The transition to new reference interest rates will require certain contracts to be modified and the ASU is intended to provide temporary optional expedients and exceptions to U.S. GAAP guidance on contract modifications and hedge accounting to ease the financial reporting burdens related to the expected market transition from the London Interbank Offered Rate (LIBOR) and other interbank offered rates to alternative reference rates. The accommodations provided by the ASU are effective through December 31, 2022, and may be applied at the beginning of any interim period within that time frame.

We have matched LIBOR-based debt with LIBOR-based interest rate swaps and have elected to apply the practical expedient related to probability and the assessment of the effectiveness for future LIBOR-indexed cash flows, which assumes that the debt instrument will use the same index rate as its corresponding interest rate swap once a new reference rate is established to replace LIBOR. We may apply other expedients as additional reference rate changes occur. We continue to assess the impact of this standard on our consolidated financial statements.

In March 2022, the FASB issued ASU 2022-02, *Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures,* which requires disclosure of gross write-offs and recoveries of financing receivables by year of origination. The standard is effective for interim and annual periods beginning after December 15, 2022, with early adoption permitted. We are currently assessing the impact this standard will have on our financial statement disclosures.

Our performance obligations for revenue from products and services are as follows:

Business services includes fulfillment, delivery and return services, cross-border solutions, mail processing services and shipping subscription solutions. Revenue for fulfillment, delivery and return services and cross-border solutions and mail processing services is recognized over time using an output method based on the number of parcels or mail pieces either processed or delivered, depending on the service type, since that measure best depicts the value of goods and services transferred to the client over the contract period. Contract terms for these services initially range from one to five years and contain annual renewal options. Revenue for shipping subscription solutions revenue is recognized ratably over the contract period as the client obtains equal benefit from these services through the period.

Support services includes providing maintenance, professional and subscription services for our equipment and digital mailing and shipping technology solutions. Contract terms range from one to five years, depending on the term of the lease contract for the related equipment. Revenue for maintenance and subscription services is recognized ratably over the contract period and revenue for professional services is recognized when services are provided.

Equipment sales generally includes the sale of mailing and shipping equipment, excluding sales-type leases. We recognize revenue upon delivery for self-install equipment and upon acceptance or installation for other equipment. We provide a warranty that the equipment is free of defects and meets stated specifications. The warranty is not considered a separate performance obligation.

Supplies revenue includes revenue from supplies for our mailing equipment and is recognized upon delivery.

Revenue from leasing transactions and financing includes revenue from sales-type and operating leases, finance income, late fees and investment income, gains and losses at the Bank.

Advance Billings from Contracts with Customers

Advance billings, current	Advance billings	**$ 88,504**	$ 92,926	$ (4,422)
Advance billings, noncurrent	Other noncurrent liabilities	**$ 996**	$ 1,109	$ (113)

Advance billings are recorded when cash payments are due in advance of our performance. Revenue is recognized ratably over the contract term. Items in advance billings primarily relate to support services on mailing equipment. Revenue recognized during the period includes $73 million of advance billings at the beginning of the period. Advance billings, current reported on the condensed consolidated balance sheets at June 30, 2022 and December 31, 2021 also includes $8 million and $6 million, respectively, from leasing transactions.

Future Performance Obligations

Future performance obligations include revenue streams bundled with our leasing contracts, primarily maintenance and subscription services. The transaction prices allocated to future performance obligations will be recognized as follows:

	Remainder of 2022	2023	2024-2027	Total
SendTech Solutions	$ 139,124	$ 229,620	$ 308,281	$ 677,025

The amounts above do not include revenue for performance obligations under contracts with terms less than 12 months or revenue for performance obligations where revenue is recognized based on the amount billable to the customer.

3. Segment Information

Our reportable segments are Global Ecommerce, Presort Services and SendTech Solutions. The principal products and services of each reportable segment are as follows:

Global Ecommerce: Includes the revenue and related expenses from business to consumer logistics services for domestic and cross-border delivery, returns and fulfillment.

Presort Services: Includes revenue and related expenses from sortation services to qualify large volumes of First Class Mail, Marketing Mail, Marketing Mail Flats and Bound Printed Matter for postal worksharing discounts.

SendTech Solutions: Includes the revenue and related expenses from physical and digital mailing and shipping technology solutions, financing, services, supplies and other applications to help simplify and save on the sending, tracking and receiving of letters, parcels and flats.

Management measures segment profitability and performance using segment earnings before interest and taxes (EBIT). Segment EBIT is calculated by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, unallocated corporate expenses, restructuring charges, asset and goodwill impairment charges and other items not allocated to a business segment. Costs related to shared assets are allocated to the relevant segments. Management believes that segment EBIT provides investors a useful measure of operating performance and underlying trends of the business. Segment EBIT may not be indicative of our overall consolidated performance and therefore, should be read in conjunction with our consolidated results of operations. The following tables provide information about our reportable segments and a reconciliation of segment EBIT to net income (loss).

6. Finance Assets and Lessor Operating Leases

Finance Assets

Finance receivables are comprised of sales-type lease receivables, secured loans and unsecured loans. Sales-type leases and secured loans are from financing options provided to clients for Pitney Bowes equipment or leasing of other manufacturers' equipment and are generally due in installments over periods ranging from three to five years. Unsecured loans comprise revolving credit lines offered to our clients for postage, supplies and working capital purposes. These revolving credit lines are generally due monthly; however, clients may rollover outstanding balances. Interest is recognized on finance receivables using the effective interest method. Annual fees are recognized ratably over the annual period covered and client acquisition costs are expensed as incurred. All finance receivables are in our SendTech Solutions segment and we segregate finance receivables into a North America portfolio and an International portfolio.

Finance receivables consisted of the following:

Allowance for Credit Losses

We provide an allowance for credit losses based on historical loss experience, the nature of our portfolios, adverse situations that may affect a client's ability to pay and current economic conditions and outlook based on reasonable and supportable forecasts. We continually evaluate the adequacy of the allowance for credit losses and adjust as necessary. The assumptions used in determining an estimate of credit losses are inherently subjective and actual results may differ significantly from estimated reserves.

We established credit approval limits based on the credit quality of the client and the type of equipment financed. We cease recognition of financing revenue for lease receivables greater than 120 days past due and for unsecured loan receivables greater than 90 days past due. Revenue recognition is resumed when the client's payments reduce the account aging to less than 60 days past due. Finance receivables are written off against the allowance after all collection efforts have been exhausted and management deems the account to be uncollectible. We believe that our credit risk is low because of the geographic and industry diversification of our clients and small account balances for most of our clients.

Activity in the allowance for credit losses for finance receivables was as follows:

	Sales-type Lease Receivables		Loan Receivables

Credit Quality

The extension of credit and management of credit lines to new and existing clients uses a combination of a client's credit score, where available, a detailed manual review of their financial condition and payment history, or an automated process. Once credit is granted, the payment performance of the client is managed through automated collections processes and is supplemented with direct follow up should an account become delinquent. We have robust automated collections and extensive portfolio management processes to ensure that our global strategy is executed, collection resources are allocated and enhanced tools and processes are implemented as needed.

Over 85% of our finance receivables are within the North American portfolio. We use a third party to score the majority of this portfolio on a quarterly basis using a proprietary commercial credit score. The relative scores are determined based on a number of factors, including financial information, payment history, company type and ownership structure. We stratify the third party's credit scores of our clients into low, medium and high-risk accounts. Due to timing and other issues, our entire portfolio may not be scored at period end. We report these amounts as "Not Scored"; however, absence of a score is not indicative of the credit quality of the account. The third-party credit score is used to predict the payment behaviors of our clients and the probability that an account will become greater than 90 days past due during the subsequent 12-month period.

- Low risk accounts are companies with very good credit scores and a predicted delinquency rate of less than 5%.
- Medium risk accounts are companies with average to good credit scores and a predicted delinquency rate between 5% and 10%.
- High risk accounts are companies with poor credit scores, are delinquent or are at risk of becoming delinquent. The predicted delinquency rate would be greater than 10%.

We do not use a third party to score our International portfolio because the cost to do so is prohibitive as there is no single credit score model that covers all countries. Accordingly, the entire International portfolio is reported in the Not Scored category. This portfolio comprises less than 15% of total finance receivables. Most of the International credit applications are small dollar applications (i.e. below $50 thousand) and are subjected to an automated review process. Larger credit applications are manually reviewed, which includes obtaining client financial information, credit reports and other available financial information.

The table below shows gross finance receivables by relative risk class and year of origination based on the relative scores of the accounts within each class as of June 30, 2022 and December 31, 2021.

Goodwill

Goodwill is tested annually for impairment at the reporting unit level during the fourth quarter or sooner if circumstances indicate an impairment may exist. The impairment test for goodwill determines the fair value of each reporting unit and compares it to the reporting unit's carrying value, including goodwill. If the fair value of a reporting unit exceeds the carrying value of the net assets assigned to that reporting unit, goodwill is not impaired and no further testing is required. If the carrying value of the net assets assigned to the reporting unit exceeds the fair value of the reporting unit, the goodwill impairment loss is calculated as the difference between these amounts, limited to the amount of goodwill allocated to the reporting unit.

We determined that the agreement to sell Borderfree was a triggering event that indicated an impairment may exist. Accordingly, we performed a goodwill impairment test of the Global Ecommerce reporting unit to assess the recoverability of the carrying value of remaining goodwill. We engaged a third-party to assist in the determination of the fair value of the reporting unit.

The results of our test indicated that no impairment existed; however, the estimated fair value of the Global Ecommerce reporting unit exceeded its carrying value by less than 20%. The determination of fair value relied on internal projections developed using numerous estimates and assumptions that are inherently subject to significant uncertainties. These estimates and assumptions included revenue growth, profitability, cash flows, capital spending and other available information. The determination of fair value also incorporated a risk-adjusted discount rate, terminal growth rates and other assumptions that market participants may use. Changes in any of these estimates or assumptions could materially affect the determination of fair value and potentially result in an impairment charge in the future. These estimates and assumptions are considered Level 3 inputs under the fair value hierarchy.

Changes in the carrying value of goodwill by reporting segment are shown in the table below.

	December 31, 2021	**Disposition**	**Currency impact**	**June 30, 2022**
Global Ecommerce	$ 395,062	**$ (55,878)**	**$ —**	**$ 339,184**
Presort Services	220,992	—	—	**220,992**
SendTech Solutions	519,049	**—**	**(18,773)**	**500,276**
Total goodwill	$ 1,135,103	**$ (55,878)**	**$ (18,773)**	**$ 1,060,452**

Global Ecommerce goodwill is net of accumulated goodwill impairment charges of $198 million at June 30, 2022 and December 31, 2021.

8. Fair Value Measurements and Derivative Instruments

We measure certain financial assets and liabilities at fair value on a recurring basis. Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. An entity is required to classify certain assets and liabilities measured at fair value based on the following fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 – Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity, may be derived from internally developed methodologies based on management's best estimate of fair value and that are significant to the fair value of the asset or liability.

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment and may affect its placement within the fair value hierarchy. The following tables show, by level within the fair value hierarchy, our financial assets and liabilities that are accounted for at fair value on a recurring basis.

Investment Securities

The valuation of investment securities is based on the market approach using inputs that are observable, or can be corroborated by observable data, in an active marketplace. The following information relates to our classification within the fair value hierarchy:

- *Money Market Funds:* Money market funds typically invest in government securities, certificates of deposit, commercial paper and other highly liquid, low risk securities. Money market funds are principally used for overnight deposits and are classified as Level 1 when unadjusted quoted prices in active markets are available and as Level 2 when they are not actively traded on an exchange.
- *Equity Securities*: Equity securities are comprised of mutual funds investing in U.S. and foreign stocks. These mutual funds are classified as Level 2.
- *Commingled Fixed Income Securities:* Commingled fixed income securities are comprised of mutual funds that invest in a variety of fixed income securities, including securities of the U.S. government and its agencies, corporate debt, mortgage-backed securities and asset-backed securities. Fair value is based on the value of the underlying investments owned by each fund, minus its liabilities, divided by the number of shares outstanding, as reported by the fund manager. These mutual funds are classified as Level 1 when unadjusted quoted prices in active markets are available and as Level 2 when they are not actively traded on an exchange.
- *Government and Related Securities:* Debt securities are classified as Level 1 when unadjusted quoted prices in active markets are available. Debt securities are classified as Level 2 where fair value is determined using quoted market prices for similar securities or benchmarking model derived prices to quoted market prices and trade data for identical or comparable securities.
- *Corporate Debt Securities:* Corporate debt securities are valued using recently executed comparable transactions, market price quotations or bond spreads for the same maturity as the security. These securities are classified as Level 2.
- *Mortgage-Backed Securities / Asset-Backed Securities:* These securities are valued based on external pricing indices or external price/spread data. These securities are classified as Level 2.

Derivative Securities

- *Foreign Exchange Contracts:* The valuation of foreign exchange derivatives is based on the market approach using observable market inputs, such as foreign currency spot and forward rates and yield curves. These securities are classified as Level 2.
- *Interest Rate Swaps:* The valuation of interest rate swaps is based on an income approach using inputs that are observable or that can be derived from, or corroborated by, observable market data. These securities are classified as Level 2.

Available-For-Sale Securities

Investment securities classified as available-for-sale are recorded at fair value with changes in fair value due to market conditions (i.e., interest rates) recorded in accumulated other comprehensive loss (AOCL), and changes in fair value due to credit conditions recorded in earnings. There were no unrealized losses due to credit losses charged to earnings through the six months ended June 30, 2022.

Available-for-sale securities consisted of the following:

	June 30, 2022			
	Amortized cost	**Gross unrealized gains**	**Gross unrealized losses**	**Estimated fair value**
Government and related securities	**$ 35,921**	**$ 30**	**$ (7,063)**	**$ 28,888**

Total	**$ 24,348**	**$ 4,262**	$ 56,743	$ 1,434

At June 30, 2022, 92% of the securities were in a loss position. We believe our allowance for credit losses on available-for-sale investment securities is adequate as our investments are primarily in highly liquid U.S. government and agency securities, high grade corporate bonds and municipal bonds. We have not recognized an impairment on investment securities in an unrealized loss position because we have the ability and intent to hold these securities until recovery of the unrealized losses or expect to receive the stated principal and interest at maturity.

Scheduled maturities of available-for-sale securities at June 30, 2022 were as follows:

	Amortized cost	Estimated fair value
Within 1 year	$ 2,449	$ 2,281
After 1 year through 5 years	14,501	13,366
After 5 years through 10 years	74,801	62,502
After 10 years	176,561	147,105
Total	$ 268,312	$ 225,254

The actual maturities may not coincide with the scheduled maturities as certain securities contain early redemption features and/or allow for the prepayment of obligations.

Held-to-Maturity Securities

Held-to-maturity securities at June 30, 2022 and December 31, 2021 totaled $21 million and $20 million, respectively.

Derivative Instruments

In the normal course of business, we are exposed to the impact of changes in foreign currency exchange rates and interest rates. We limit these risks by following established risk management policies and procedures, including the use of derivatives. We use derivative instruments to limit the effects of currency exchange rate fluctuations on financial results and manage the cost of debt. We do not use derivatives for trading or speculative purposes. Derivative instruments are recorded at fair value and the accounting for changes in fair value depends on the intended use of the derivative, the resulting designation and the effectiveness of the instrument in offsetting the risk exposure it is designed to hedge.

Foreign Exchange Contracts

We enter into foreign exchange contracts to mitigate the currency risk associated with anticipated inventory purchases between affiliates and from third parties. These contracts are designated as cash flow hedges. The effective portion of the gain or loss on cash flow hedges is included in AOCL in the period that the change in fair value occurs and is reclassified to earnings in the period that the hedged item is recorded in earnings. At June 30, 2022 and December 31, 2021, outstanding contracts associated with these anticipated transactions had a notional value of $2 million and $1 million, respectively. Amounts included in AOCL at June 30, 2022 will be recognized in earnings within the next 12 months. No amount of ineffectiveness was recorded in earnings for these designated cash flow hedges.

Interest Rate Swaps

We have interest rate swap agreements with an aggregate notional value of $200 million that are designated as cash flow hedges. The fair value of the interest rate swaps is recorded as a derivative asset or liability at the end of each reporting period with the change in fair value reflected in AOCL.

The fair value of derivative instruments was as follows:

Designation of Derivatives	Balance Sheet Location	June 30, 2022	December 31, 2021
Derivatives designated as hedging instruments			
Foreign exchange contracts	Other current assets and prepayments	**$ 80**	$ 21

Nondesignated Derivative Instruments

We also enter into foreign exchange contracts to minimize the impact of exchange rate fluctuations on short-term intercompany loans and related interest that are denominated in a foreign currency. These foreign exchange contracts are not designated as hedging instruments. Accordingly, the revaluation of intercompany loans and interest and the mark-to-market adjustment on these derivatives are recorded in earnings. All outstanding contracts at June 30, 2022 mature within 3 months.

The mark-to-market adjustments of non-designated derivative instruments were as follows:

		Three Months Ended June 30,	
		Derivative Gain (Loss) Recognized in Earnings

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, available-for-sale and held-to-maturity investment securities, accounts receivable, loan receivables, derivative instruments, accounts payable and debt. The carrying value of cash and cash equivalents, held-to-maturity investment securities, accounts receivable, loans receivable, and accounts payable approximate fair value. The fair value of available-for-sale investment securities and derivative instruments are presented above. The fair value of debt is estimated based on recently executed transactions and market price quotations. The inputs used to determine the fair value of debt were classified as Level 2 in the fair value hierarchy. The carrying value and estimated fair value of debt was as follows:

	June 30, 2022	December 31, 2021
Carrying value	**$ 2,219,519**	$ 2,323,838
Fair value	**$ 1,932,664**	$ 2,355,894

9. Restructuring Charges

Activity in our restructuring reserves was as follows:

	Severance and other exit costs
Balance at January 1, 2022	$ 5,747
Amounts charged to expense	**8,408**
Cash payments	**(8,255)**
Noncash activity	**(275)**
Balance at June 30, 2022	**$ 5,625**
Balance at January 1, 2021	$ 10,063
Amounts charged to expense	7,733
Cash payments	(8,825)
Noncash activity	(541)
Balance at June 30, 2021	$ 8,430

The majority of the restructuring reserves are expected to be paid over the next 12 to 24 months.

10. Debt

Total debt consisted of the following:

	Interest rate	June 30, 2022	December 31, 2021
Notes due April 2023	6.20%	—	90,259
Notes due March 2024	4.625%	**238,449**	242,603

Total debt		**2,219,519**	2,323,838
Less: current portion long-term debt		**24,752**	24,739
Long-term debt		**$ 2,194,767**	$ 2,299,099

During 2022, we redeemed the April 2023 notes and recorded a $5 million pre-tax loss in connection with this redemption. We also made scheduled principal repayments of $12 million on our term loans. At June 30, 2022, the interest rate on the 2026 Term Loan was 3.4% and the interest rate of the 2028 Term Loan was 5.7%.

We have outstanding interest rate swaps that effectively convert $200 million of our variable rate debt to fixed rates. Under the terms of these interest rate swap agreements, we pay fixed-rate interest of 0.56% and receive variable-rate interest based on one-month LIBOR. The variable interest rates under the term loans and the swaps reset monthly.

The credit agreement that governs our $500 million secured revolving credit facility and term loans contains financial and non-financial covenants. At June 30, 2022, we were in compliance with all covenants and there were no outstanding borrowings under the revolving credit facility.

12. Income Taxes

For the three months ended June 30, 2022, we reported a tax benefit of $7 million on a pre-tax loss of $3 million primarily due to the recognition of a tax benefit from a tax basis adjustment related to the sale of Borderfree. This benefit is a one-time tax benefit that was recorded as a result of the Borderfree business classified as assets held for sale. For the six months ended June 30, 2022, we reported a tax benefit of $3 million on pre-tax income of $22 million primarily due to the benefit related to the sale of Borderfree and a $1 million benefit associated with the 2019 sale of a business.

The effective tax rate for the three and six months ended June 30, 2021 was 19.1% and 57.2%, respectively, and includes a tax benefit of $5 million due to tax legislation in the U.K. and a tax charge of $6 million on the pre-tax gain of $10 million from the sale of Tacit as the tax basis was lower than the book basis. The effective tax rate for the six months ended June 30, 2021 also includes benefits of $3 million from an affiliate reorganization.

As is the case with other large corporations, our tax returns are examined by tax authorities in the U.S. and other global taxing jurisdictions in which we have operations. As a result, it is reasonably possible that the amount of unrecognized tax benefits will decrease in the next 12 months, and this decrease could be up to 15% of our unrecognized tax benefits.

The Internal Revenue Service examinations of our consolidated U.S. income tax returns for tax years prior to 2018 are closed to audit; however, various post-2016 U.S. state and local tax returns are still subject to examination, with some states in appeals from 2011. For our significant non-U.S. jurisdictions, Canada is closed to examination through 2016 except for a specific issue arising in earlier years, France is closed through 2019, Germany is closed through 2016 and the U.K. is closed through 2019. We also have other less significant tax filings currently subject to examination.

13. Commitments and Contingencies

In the ordinary course of business, we are routinely defendants in, or party to, a number of pending and threatened legal actions. These may involve litigation by or against us relating to, among other things, contractual rights under vendor, insurance or other contracts; intellectual property or patent rights; equipment, service, payment or other disputes with clients; or disputes with employees. Some of these actions may be brought as a purported class action on behalf of a purported class of employees, customers or others. In management's opinion, it is not reasonably possible that the potential liability, if any, that may result from these actions, either individually or collectively, will have a material effect on our financial position, results of operations or cash flows. However, as litigation is inherently unpredictable, there can be no assurances in this regard.

As of June 30, 2022, we have entered into real estate and equipment leases with aggregate payments of $124 million and terms ranging from four to eight years that have not commenced.

Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains statements that are forward-looking. We caution readers that any forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 (Securities Act) and Section 21E of the Securities Exchange Act of 1934 (Exchange Act) may change based on various factors. Forward-looking statements are based on current expectations and assumptions, which we believe are reasonable; however, such statements are subject to risks and uncertainties, and actual results could differ materially from those projected or assumed in any of our forward-looking statements. Words such as "estimate," "target," "project," "plan," "believe," "expect," "anticipate," "intend" and similar expressions may identify such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Forward-looking statements in this Form 10-Q speak only as of the date hereof, and forward-looking statements in documents that are incorporated by reference speak only as of the date of those documents.

Our results of operations, financial condition and forward-looking statements are subject to change and to inherent risks and uncertainties, such as those disclosed or incorporated by reference in our filings with the Securities and Exchange Commission. In particular, we continue to navigate the impacts of the COVID-19 pandemic as well as the risk of a global recession, and the effects that they may have on our, and our clients' businesses. Other factors which could cause future financial performance to differ materially from expectations, and which may also be exacerbated by COVID-19 or the risk of a global recession or negative change in the economy, include, without limitation:

- declining physical mail volumes
- changes in postal regulations or the operations and financial health of posts in the U.S. or other major markets, or changes to the broader postal or shipping markets
- the loss of, or significant changes to, United States Postal Service (USPS) commercial programs or our contractual relationships with the USPS or USPS' performance under those contracts
- our ability to continue to grow and manage unexpected fluctuations in volumes, gain additional economies of scale and improve profitability within our Global Ecommerce segment
- changes in labor and transportation availability and costs
- global supply chain issues adversely impacting our third-party suppliers' ability to provide us products and services
- declines in demand for our ecommerce services resulting from supply chain delays or interruptions affecting our retail clients, or changes in retail consumer behavior or spending patterns
- the impacts of inflation and rising prices on our costs and expenses, and to our clients and retail consumers
- competitive factors, including pricing pressures, technological developments and the introduction of new products and services by competitors
- the loss of some of our larger clients in our Global Ecommerce and Presort Services segments
- expenses and potential impacts resulting from a breach of security, including cyber-attacks or other comparable events
- the potential impacts on our cost of debt due to potential interest rate increases
- our success at managing customer credit risk
- changes in foreign currency exchange rates, especially the impact a strengthening U.S. dollar could have on our global operations
- changes in tax laws, rulings or regulations
- capital market disruptions or credit rating downgrades that adversely impact our ability to access capital markets at reasonable costs
- our success in developing and marketing new products and services and obtaining regulatory approvals, if required
- the continued availability and security of key information technology systems and the cost to comply with information security requirements and privacy laws
- changes in international trade policies, including the imposition or expansion of trade tariffs, and other geopolitical risks
- our success at managing relationships and costs with outsource providers of certain functions and operations
- changes in banking regulations or the loss of our Industrial Bank charter
- increased environmental and climate change requirements or other developments in these areas
- intellectual property infringement claims
- the use of the postal system for transmitting harmful biological agents, illegal substances or other terrorist attacks
- impact of acts of nature on the services and solutions we offer

Further information about factors that could materially affect us, including our results of operations and financial condition, is contained in Item 1A. "Risk Factors" in our 2021 Annual Report, as supplemented by Part II, Item 1A in this Quarterly Report on Form 10-Q.

Total Segment EBIT	**$ 79,591**	$ 112,424	(29)%	**$ 190,102**	$ 219,569	(13)%

Revenue decreased 3% (2% at constant currency) in the second quarter of 2022 compared to the prior year primarily driven by a decrease in business services revenue due to lower cross-border volumes, lower support services revenue driven by a declining meter population and a shift to cloud-enabled products and lower financing revenue due to a declining lease portfolio. Global Ecommerce revenue decreased 6% (5% at constant currency), SendTech Solutions revenue declined 2% (flat at constant currency) and Presort Services revenue increased 3%.

Segment EBIT in the quarter decreased 29% compared to the prior year period. Global Ecommerce EBIT decreased $18 million primarily due to the decline in revenue and increased operating expenses. Presort Services EBIT decreased 20% primarily due to increased transportation and labor costs and SendTech Solutions EBIT decreased 11% primarily driven by the decline in revenue. Refer to Results of Operations section for further information.

Outlook

We see market opportunities for our businesses and are making investments in new solutions and services. This includes investments in our physical networks in Global Ecommerce and Presort Services for greater efficiency and economies of scale and upgrading our technologies across all three segments. We are also executing against initiatives to improve efficiencies in each business and in Corporate shared services. Our mix of business continues to shift to higher growth, lower margin markets, and while the investments we are making today may put further near-term downward pressure on our margins, we expect these investments to provide a platform for long-term growth and margin improvements.

On a consolidated basis, we expect revenue growth in 2022 compared to 2021 from a low-single digit percentage decline to low-single digit percentage growth. Although we expect some continued growth in the demand and costs for transportation services and labor, we expect margin improvements in the second half of the year from increased productivity and pricing initiatives. Supply chain delays are slowing our receipt and installation of equipment and technologies designed to increase automation and drive productivity in Global Ecommerce and Presort Services. Supply chain delays are also affecting our ability to receive required parts and components for our SendTech Solutions products on a timely basis. We will continue to take proactive steps to manage our operations and mitigate the financial impacts of these higher costs and supply chain issues; however, some of the factors are not within our control, and the duration and severity of supply chain issues is unknown and unpredictable.

Expectations for the remainder of the year are dependent on several external factors, including no further weakening of the global economy or additional shut-downs related to COVID-19, continued improvement in labor availability, changes in fuel price expectations, and no additional adverse geopolitical developments.

RESULTS OF OPERATIONS

In our revenue discussion, we may refer to revenue growth on a constant currency basis. Constant currency measures exclude the impact of changes in currency exchange rates from the prior period under comparison. We believe that excluding the impacts of currency exchange rates provides investors with a better understanding of the underlying revenue performance. Constant currency change is calculated by converting the current period non-U.S. dollar denominated revenue using the prior year's exchange rate. Where constant currency measures are not provided, the actual change and constant currency change are the same.

Management measures segment profitability and performance using segment earnings before interest and taxes (EBIT), which is calculated by deducting from segment revenue the related costs and expenses attributable to the segment. Segment EBIT excludes interest, taxes, unallocated corporate expenses, restructuring charges, asset and goodwill impairment charges and other items not allocated to a business segment. Management believes that Segment EBIT provides investors a useful measure of operating performance and underlying trends of the business. Segment EBIT may not be indicative of our overall consolidated performance and should be read in conjunction with our consolidated results of operations.

Effective for 2022, we refined our methodology for allocating transportation costs between Global Ecommerce and Presort Services, resulting in an increase to Global Ecommerce EBIT and a corresponding decrease to Presort Services EBIT of approximately $3 million and $7 million for the three and six months ended June 30, 2022, respectively.

REVENUE AND SEGMENT EBIT

Global Ecommerce

Global Ecommerce includes the revenue and related expenses from business to consumer logistics services for domestic and cross-border delivery, returns and fulfillment.

	Revenue				Cost of Revenue		Gross Margin	
	Three Months Ended June 30,				Three Months Ended June 30,		Three Months Ended June 30,	
	2022	2021	Actual % change	Constant Currency % change	**2022**	2021	**2022**	2021

	Three Months Ended June 30,		
	2022	2021	Actual % change
Segment EBIT	**$ (28,825)**	$ (10,831)	>(100%)

Global Ecommerce revenue decreased 6% (5% at constant currency) in the second quarter of 2022 compared to the prior year period primarily due to cross-border volume declines due in part, to a strengthening U.S. dollar and weakening global economic factors.

Gross margin decreased $7 million and gross margin percentage decreased to 9.6% from 10.8% compared to the prior year period, primarily due to the decline in revenue and higher postal costs of $3 million, partially offset by margin improvements in domestic parcel delivery services and $3 million favorability from the revised transportation cost allocation methodology.

Segment EBIT for the second quarter of 2022 was a loss of $29 million compared to a loss of $11 million in the prior year period. The EBIT degradation was driven by the decline in gross margin of $7 million as well as increased operating expenses of $11 million, driven primarily by higher credit card fees and higher credit loss provision of $4 million and $3 million, respectively.

	Revenue				Cost of Revenue		Gross Margin	
	Six Months Ended June 30,				Six Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	Actual % change	Constant Currency % change	**2022**	2021	**2022**	2021
Business services	**$ 812,297**	$ 831,515	(2)%	(2)%	**$ 724,493**	$ 757,655	10.8 %	8.9 %

	Segment EBIT		
	Six Months Ended June 30,		
	2022	2021	Actual % change
Segment EBIT	**$ (42,521)**	$ (37,207)	(14)%

Global Ecommerce revenue decreased 2% in the first half of 2022 compared to the prior year period due primarily to lower volumes, partially offset by pricing actions. Cross-border and digital delivery volumes contributed revenue declines of 5% and 2%, respectively, which were partially offset by domestic parcel delivery volumes contributing revenue growth of 6%.

Gross margin increased $14 million and gross margin percentage increased to 10.8% from 8.9% compared to the prior year period. The increase was primarily due to pricing actions, improved warehouse productivity, margin improvements in domestic parcel delivery and fulfillment services and a decrease in transportation costs of $7 million, primarily driven by the revised transportation cost allocation methodology. Partially offsetting these increases were lower revenue from cross-border and digital delivery services and higher postal costs of $12 million.

Segment EBIT for the first half of 2022 was a loss of $43 million compared to a loss of $37 million in the prior year period. The EBIT decline was driven primarily by increased operating expenses of $19 million primarily driven by higher credit card fees of $9 million, higher employee-related expenses of $6 million and higher credit loss provision of $4 million, partially offset by the increase in gross margin of $14 million.

Presort Services

Presort Services includes revenue and related expenses from sortation services to qualify large volumes of First Class Mail, Marketing Mail, Marketing Mail Flats and Bound Printed Matter for postal worksharing discounts.

	Revenue				Cost of Revenue		Gross Margin	
	Three Months Ended June 30,				Three Months Ended June 30,		Three Months Ended June 30,	
	2022	2021	Actual % change	Constant Currency % change	**2022**	2021	**2022**	2021

	Segment EBIT		
	Three Months Ended June 30,		
	2022	2021	Actual % change
Segment EBIT	**$ 12,851**	$ 16,134	(20)%

Presort Services revenue increased 3% in the second quarter of 2022 compared to the prior year period. The processing of First Class Mail and Marketing Mail contributed revenue growth of 2% and 1%, respectively, primarily due to the impact of pricing actions and product mix.

Gross margin decreased $4 million and gross margin percentage declined to 19.9% from 23.4%. Segment EBIT decreased $3 million, or 20% compared to the prior year period. In the second quarter of 2022, gross margin and segment EBIT were impacted by higher transportation costs of $7 million primarily driven by the revised transportation cost allocation methodology of $3 million and higher fuel costs of $2 million, and increased labor costs of $4 million, primarily due to wage increases. The impact of these higher costs has been partially offset through productivity gains and pricing actions.

	Revenue				Cost of Revenue		Gross Margin

	Six Months Ended June 30,		
	2022	2021	Actual % change
Segment EBIT	**$ 32,483**	$ 35,185	(8)%

Presort Services revenue increased 8% in the first half of 2022 compared to the prior year period. The processing of First Class Mail, Marketing Mail and Marketing Mail Flats and Bound Printed Matter contributed revenue growth of 5%, 2% and 1%, respectively, primarily due to the impact of pricing actions.

Gross margin decreased $2 million and gross margin percentage declined to 21.2% from 23.6%. Segment EBIT decreased $3 million, or 8% in the first half of 2022 compared to the prior year period. During the first half of the year, gross margin and segment EBIT were impacted by higher transportation costs of $15 million primarily driven by tight demand for these services, higher fuel costs and the revised transportation cost allocation methodology, and higher labor costs of $12 million due to higher demand for labor and wage increases. The impact of these higher costs has been partially offset through pricing actions and productivity improvements.

SendTech Solutions

SendTech Solutions includes the revenue and related expenses from physical and digital mailing and shipping technology solutions, financing, services, supplies and other applications to help simplify and save on the sending, tracking and receiving of letters, parcels and flats.

Segment EBIT	**$ 95,565**	$ 107,121	(11)%

SendTech Solutions revenue decreased 2% (flat at constant currency) in the second quarter of 2022 compared to the prior year period. Support services revenue declined 7% (5% at constant currency) primarily due to a declining meter population and shift to cloud-enabled products, which generally require less service. Financing revenue declined 8% (7% at constant currency) primarily due to lower lease extensions as more clients opted to lease new equipment rather than extend leases on existing equipment. Partially offsetting these decreases, business services revenue increased 34% (35% at constant currency) primarily due to growth in subscription services and equipment sales revenue increased 4% (7% at constant currency), due in part, to customers upgrading equipment to comply with new security requirements.

Gross margin decreased $16 million, gross margin percentage decreased to 58.3% from 61.5% and segment EBIT decreased $12 million, or 11%. In the second quarter of 2022, gross margin and segment EBIT were impacted by the decrease in higher margin support services revenue and financing revenue. Segment EBIT in the quarter benefited from lower operating expenses of $4 million, primarily due to cost management.

Segment EBIT	**$ 200,140**	$ 221,591	(10)%

SendTech Solutions revenue decreased 3% (1% at constant currency) in the second half of 2022 compared to the prior year period. Support services revenue declined 7% (5% at constant currency) primarily due to a declining meter population and shift to cloud-enabled products. Financing revenue declined 8% (7% at constant currency) primarily due to lower lease extensions as more clients opted to lease new equipment rather than extend leases on existing equipment. Partially offsetting these decreases, business services revenue increased 31% (32% at constant currency) primarily due to growth in subscription services and equipment sales revenue increased 4% (6% at constant currency).

Gross margin for the second half of 2022 decreased $31 million and gross margin percentage decreased to 59.2% from 62.2%. Segment EBIT decreased $21 million, or 10%. For the first half of 2022, gross margin and segment EBIT were impacted by the declines in higher margin support services revenue and financing revenue. Segment EBIT for the first half of 2022 benefited from lower operating expenses of $10 million, due in part, to lower employee-related expenses and other cost savings.

UNALLOCATED CORPORATE EXPENSES

The majority of selling, general and administrative (SG&A) expenses are recorded directly or allocated to our reportable segments. SG&A expenses not recorded directly, or allocated to our reportable segments, are reported as unallocated corporate expenses. Unallocated corporate expenses primarily represents corporate administrative functions such as finance, marketing, human resources, legal, information technology and innovation.

	Three Months Ended June 30,			Six Months Ended June 30,		
	2022	2021	Actual % change	**2022**	2021	Actual % change
Unallocated corporate expenses	**$ 40,761**	$ 56,316	(28)%	**$ 98,595**	$ 113,781	(13)%

Unallocated corporate expenses decreased $16 million and $15 million in the second quarter and first half of 2022, respectively, compared to the prior year periods, primarily due to lower employee-related variable expenses.

CONSOLIDATED EXPENSES

Selling, general and administrative

SG&A expense for the second quarter of 2022 declined $10 million compared to the prior year period, primarily due to lower variable compensation expense of $18 million, partially offset by higher credit loss provision of $4 million and higher professional fees of $2 million. SG&A expense for the first half of 2022 declined $5 million compared to the prior year period, primarily due to lower variable compensation expense of $16 million, partially offset by higher travel costs of $4 million, credit loss provision of $2 million and professional fees of $1 million.

Research and development (R&D)

R&D expense for the second quarter and first half of 2022 was $11 million and $23 million, respectively, and flat compared to the prior year periods.

Restructuring charges

Restructuring charges, consisting of costs for employee severance and facility closures, were $4 million for the second quarter and $8 million for the first half of 2022. See Note 9 to the Condensed Consolidated Financial Statements for further information.

Other (income) expense

Other (income) expense for the first six months of 2022 includes a $14 million gain on the sale of our Shelton, Connecticut office building, a $3 million gain from the 2019 sale of a business and a charge of $5 million from the early redemption of debt. See Notes 10 and 16 to the Condensed Consolidated Financial Statements for further information.

Income taxes

The effective tax rate for the three and six months ended June 30, 2022 was 261.2% and a benefit of 12.6%, respectively. See Note 12 to the Condensed Consolidated Financial Statements for further information.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2022, we had cash, cash equivalents and short-term investments of $582 million, which includes $153 million held at our foreign subsidiaries used to support the liquidity needs of those subsidiaries. Our ability to maintain adequate liquidity for our operations is dependent upon a number of factors, including our revenue and earnings, our clients' ability to pay their balances on a timely basis, the impacts of changing macroeconomic and geopolitical conditions and our ability to manage costs and improve productivity. At this time, we believe that existing cash and investments, cash generated from operations and borrowing capacity under our $500 million revolving credit facility will be sufficient to fund our cash needs for the next 12 months.

Cash Flow Summary

Changes in cash and cash equivalents were as follows:

	2022	2021	Change
Net cash from operating activities	**$ 45,694**	$ 144,729	$ (99,035)
Net cash from investing activities	**(27,518)**	(68,034)	40,516
Net cash from financing activities	**(166,504)**	(199,024)	32,520
Effect of exchange rate changes on cash and cash equivalents	**(13,455)**	349	(13,804)
Change in cash and cash equivalents	**$ (161,783)**	$ (121,980)	$ (39,803)

Operating Activities

Cash flows from operating activities in 2022 declined $99 million compared to the prior year period primarily due to the timing of collections of receivables, lower customer deposits, the timing of insurance premium payments and other working capital changes.

Investing Activities

Cash flows from investing activities for 2022 increased $41 million compared to the prior year, primarily due to higher proceeds from the sale of businesses and assets of $25 million, lower capital expenditures of $20 million and net proceeds of $4 million from other investment activities.

Cash flows from investing activities in 2022 include proceeds of $51 million from the sale of our Shelton facility and $9 million related to the 2019 sale of a business. Cash flows from investing activities in 2021 include net proceeds of $28 million from the sale of Tacit and $2 million for other asset sales.

Financing Activities

Cash flows from financing activities for 2022 improved $33 million compared to the prior year primarily due to lower net repayments of debt of $37 million and lower premiums and fees paid to refinance debt of $42 million. These improvements were partially offset by lower cash flow from changes in customer deposits at the PB Bank of $32 million and $13 million of common stock repurchases.

Financings and Capitalization

In March 2022, we redeemed the April 2023 notes and recorded a $5 million pre-tax loss in connection with this redemption.

The credit agreement that governs our $500 million secured revolving credit facility and term loans contains financial and non-financial covenants. At June 30, 2022, we were in compliance with all covenants and there were no outstanding borrowings under the revolving credit facility.

Each quarter, our Board of Directors considers whether to approve the payment, as well as the amount, of a dividend. There are no material restrictions on our ability to declare dividends. We expect to continue to pay a quarterly dividend; however, no assurances can be given.

Contractual Obligations and Off-Balance Sheet Arrangements

As of June 30, 2022, we have entered into real estate and equipment leases with aggregate payments of $124 million and terms ranging from four to eight years that have not commenced. Most of these leases are expected to commence throughout the second half of 2022 and some into 2023.

At June 30, 2022, there are no off-balance sheet arrangements that have, or are reasonably likely to have, a material effect on our financial condition, results of operations or liquidity.

Critical Accounting Estimates

Goodwill

Goodwill is tested annually for impairment at the reporting unit level during the fourth quarter or sooner if circumstances indicate an impairment may exist. The impairment test for goodwill determines the fair value of each reporting unit and compares it to the reporting unit's carrying value, including goodwill. If the fair value of a reporting unit exceeds the carrying value of the net assets assigned to that reporting unit, goodwill is not impaired and no further testing is required. If the carrying value of the net assets assigned to the reporting unit exceeds the fair value of the reporting unit, the goodwill impairment loss is calculated as the difference between these amounts, limited to the amount of goodwill allocated to the reporting unit.

We determined that the agreement to sell Borderfree was a triggering event that indicated an impairment may exist. Accordingly, we performed a goodwill impairment test of the Global Ecommerce reporting unit to assess the recoverability of the carrying value of remaining goodwill. We engaged a third-party to assist in the determination of the fair value of the reporting unit.

The results of our test indicated that no impairment existed; however, the estimated fair value of the Global Ecommerce reporting unit exceeded its carrying value by less than 20%. The determination of fair value relied on internal projections developed using numerous estimates and assumptions that are inherently subject to significant uncertainties. These estimates and assumptions included revenue growth, profitability, cash flows, capital spending and other available information. The determination of fair value also incorporated a risk-adjusted discount rate, terminal growth rates and other assumptions that market participants may use. Changes in any of these estimates or assumptions could materially affect the determination of fair value and the associated goodwill impairment assessment. Potential events and circumstances that could have an adverse effect on our estimates and assumptions include, but are not limited to, declining revenue, our inability to grow volumes, gain additional economies of scale and improve profitability, continued increases in costs and rising interest rates.

The goodwill balance related to the Global Ecommerce reporting unit at June 30, 2022 was $339 million. We will continue to monitor and evaluate the carrying value of goodwill for this reporting unit, and should facts and circumstances change, a non-cash impairment charge could be recorded in the future.

Regulatory Matters

There have been no significant changes to the regulatory matters disclosed in our 2021 Annual Report.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the disclosures made in our 2021 Annual Report.

Item 4: Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures are also designed to reasonably ensure that such information is accumulated and communicated to management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), to allow timely decisions regarding disclosures.

With the participation of our CEO and CFO, management evaluated our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act) and internal controls over financial reporting as of the end of the period covered by this report. Our CEO and CFO concluded that, as of the end of the period covered by this report, such disclosure controls and procedures were effective to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the required time periods. In addition, no changes in internal control over financial reporting occurred during the quarter covered by this report that materially affected, or are reasonably likely to materially affect, such internal control over financial reporting. Further, we have not experienced any material impact to our internal controls over financial reporting given that most of our employees are working remotely due to COVID-19.

It should be noted that any system of controls is based in part upon certain assumptions designed to obtain reasonable (and not absolute) assurance as to its effectiveness, and there can be no assurance that any design will succeed in achieving its stated goals. Notwithstanding this caution, the CEO and CFO have reasonable assurance that the disclosure controls and procedures were effective as of June 30, 2022.

PART II. OTHER INFORMATION

Item 1: Legal Proceedings

See Note 13 to the Condensed Consolidated Financial Statements.

Item 1A: Risk Factors

There were no material changes to the risk factors identified in our 2021 Annual Report.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of Equity Securities

We periodically repurchase shares of our common stock in the open market to manage the dilution created by shares issued under employee stock plans and for other purposes. There were no purchases of our common stock during the three months ended June 30, 2022. We have remaining authorization to purchase up to $3 million of our common stock.

Exhibit 10.1

SECOND AMENDMENT dated as of May 11, 2022 (this "Amendment"), to the CREDIT AGREEMENT dated as of November 1, 2019 (as amended, supplemented or otherwise modified from time to time, the "Credit Agreement"), among PITNEY BOWES INC., a Delaware corporation (the "Borrower"), the LENDERS and ISSUING BANKS party thereto and JPMORGAN CHASE BANK, N.A. ("JPMorgan"), as administrative agent.

WHEREAS the Borrower has requested that the Credit Agreement be amended as set forth herein;

WHEREAS pursuant to Section 9.02(b) of the Credit Agreement, the Credit Agreement may be amended by the Borrower and the Administrative Agent in order to cure any ambiguity, omission, mistake, defect or inconsistency and to cause any guarantee, collateral security document or other document to be consistent with the Credit Agreement and the other Loan Documents;

NOW, THEREFORE, in consideration of the mutual agreements herein contained and other good and valuable consideration, the sufficiency and receipt of which are hereby acknowledged, and subject to the conditions set forth herein, the parties hereto hereby agree as follows:

SECTION 1. Interpretation.

(a) Capitalized terms used and not defined herein (including in the recitals hereto) shall have the meanings assigned to such terms in the Credit Agreement. The rules of interpretation set forth in Section 1.03 of the Credit Agreement are hereby incorporated by reference herein, *mutatis mutandis*.

SECTION 2. Amendment to the Credit Agreement. Effective as of the Second Amendment Effective Date (as defined below), the definition of the term "Obligations" set forth in Section 1.01 of the Credit Agreement is hereby amended by inserting the words "and the Restricted Subsidiaries" immediately following the words "of the Loan Parties" in each of clauses (b) and (c) thereof.

SECTION 3. Representations and Warranties. The Borrower (with respect to itself and, where applicable, the Restricted Subsidiaries) represents and warrants to the Administrative Agent and to the Lenders on and as of the Second Amendment Effective Date that:

(b) this Amendment and the transactions contemplated hereby are within each Loan Party's corporate or other organizational powers and have been duly authorized by all necessary corporate or other organizational and, if required, stockholder or other equityholder action;

(c) this Amendment has been duly authorized, executed and delivered by the Borrower and constitutes the legal, valid and binding obligation of the Borrower, enforceable against the Borrower in accordance with its terms, subject to applicable bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium or other laws affecting creditors' rights generally and subject to general principles of equity, regardless of whether considered in a proceeding in equity or at law;

(d) the representations and warranties of each Loan Party set forth in the Loan Documents are true and correct in all material respects (or, in the case of representations and warranties qualified as to materiality or Material Adverse Effect, in all respects), except in the case of any such representation and warranty that expressly relates to a prior date, in which case such representation and warranty is true and correct in all material respects (or in all respects, as applicable) as of such earlier date; and

(e) at the time of and immediately after giving effect to this Amendment and the transactions contemplated hereby, no Default or Event of Default shall have occurred and be continuing.

SECTION 4. Effectiveness. This Amendment shall become effective as of the date first above written (the "Second Amendment Effective Date") when it shall have been executed by the Borrower and the Administrative Agent.

SECTION 5. Effects on Loan Documents; No Novation. (a) Except as expressly set forth herein, this Amendment (i) shall not by implication or otherwise limit, impair, constitute a waiver of or otherwise affect the rights and remedies of the Lenders, the Administrative Agent, the Borrower or any other Loan Party under the Credit Agreement or any other Loan Document and (ii) shall not alter, modify, amend or in any way affect any of the terms, conditions, obligations, covenants or agreements contained in the Credit Agreement or any other Loan Document, all of which are ratified and affirmed in all respects and shall continue in full force and effect. Nothing herein shall be deemed to entitle the Borrower or any other Loan Party to any future consent to, or waiver, amendment, modification or other change of, any of the terms, conditions, obligations, covenants or agreements contained in the Credit Agreement or any other Loan Document in similar or different circumstances. After the Second Amendment Effective Date, any reference in the Loan Documents to the Credit Agreement shall mean the Credit Agreement as modified hereby. This Amendment shall constitute a "Loan Document" for all purposes of the Credit Agreement and the other Loan Documents.

SECTION 6. Miscellaneous. The provisions of Sections 9.09, 9.10 and 9.11 of the Credit Agreement are hereby incorporated by reference herein, *mutatis mutandis*.

SECTION 7. Counterparts. This Amendment may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. The words "execution," "signed," "signature," "delivery," and words of like import in or relating to this Amendment and/or any document to be signed in connection with this Amendment and the transactions contemplated hereby shall be deemed to include Electronic Signatures, deliveries or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature, physical delivery thereof or the use of a paper-based recordkeeping system, as the case may be.

SECTION 8. Reaffirmation. The Borrower, on behalf of each of the Loan Parties, hereby (a) reaffirms their respective obligations under the Credit Agreement and each other Loan Document, in each case as modified by this Amendment, (b) reaffirms all Liens on the Collateral which have been granted by such Loan Party in favor of the Administrative Agent (for the benefit of the Secured Parties) pursuant to the Loan Documents and (c) acknowledges and agrees that the guarantees of the Loan Parties and the grants of security interests by the Loan Parties contained in the Collateral

Agreement and the other Security Documents are, and shall remain, in full force and effect in respect of, and to secure, the Obligations.

[Signature Pages Follow]

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be duly executed by their respective authorized officers as of the day and year first written above.
